2. Applicants' are respectfully requested to note the Examiner prosecuting this application has changed. All future correspondence should be addressed to Examiner Colbert, Art Unit 3624.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

4. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as processing first data and Group II has a first message comprising the number of a mobile telephone payer and verifying the type of digital mobile telephone. 7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
